Take MacLoggerDX Mobile!

MacLoggerDX HD is an Amateur Radio application that monitors the spots from your favourite DX Cluster for DXing, casual Contesting or rag-chewing. It Alerts you to rare contacts or band openings by looking up and displaying real time propagation paths on a zoomable map. It can log your contacts to an sql database and includes ADIF import, export and Log syncing with MacLoggerDX desktop. [www.dogparksoftware.com](http://www.dogparksoftware.com)
